

# Health and Disability Services Pharmacy Services Standard 8134.7:2010

JUST PUBLISHED – ORDER YOUR COPY NOW

This new set of standards for pharmacy services across New Zealand will create an environment which fosters continuing quality improvements for community and hospital-based pharmacy services, and for clinical pharmacy services not provided from a pharmacy.

The standards define the quality and safety requirements for providing pharmacy services to ensure safe and appropriate services for consumers, and will be the basis of PQA4 Ministry of Health/DHB quality audits.
