

## NZPERF GRANTS with copies of published papers

Ref	Approved	Subject	Researcher
		Kinetic Perspectives in Colonic Drug Delivery	Andrew McLeod
		Dextran prodrugs for colon specific delivery	Andrew McLeod
		Patterns in the drug treatment of hypertension in Auckland 1982-7	Barbara Sinclair
		Morphine syringes: A question of sterility	David Bullen
	May 88	Optimisation of ciprofloxacin usage against <i>pseudomans aeruginosa</i>	DavidJones/Karen Shaffer
	May 88	Medication use in nine year olds; types of medicines used and recall of advice given	Barbara Sinclair
	Nov 90	A study of hospital outpatients costs and the pharmacokinetics of AZT and probenecid in HIV infected patients	Judith McDermott
		Placental transfer of Bblockers	Wanwimoluk
		Human buccal absorption: estimating the transfer of kinetics of drugs across the human buccal membrane	M Rathbone
1		PhD study Physio-chemical properties of barbituric acid derivatives	R Prankerd
2	Nov 90	Peridontal disease	Medlicott
3	May 91	Potential of bioadhesive of Cyclodextrin complexes in ocular drug delivery	Bary/Tucker/Davies
8	Dec 92	Medicine systems admin discrepancies	Bryant
9	Dec 92	Pilocarpine stability	Fawcett
11	May 93	Adrenoreceptor agonists PhD programme	Boulton
12	May 93	Smoking and quinine	Wanwimolruk
		Effects of drug interactions on the pharmacokinetics of Quinine	Wanwimolruk
28	Nov 94	Dosing & monitoring for carboplatin	S Duffull
29	May 95	Pharmacy workforce survey	Ferguson/Barron
32	May 95	Genetic polymorphism of debrisoquine & proguanil in	S Bhawan & Wanwimolruk
38	Dec 95	Viscosity enhancing polymers	Davies/Tucker
45	Nov 96	Complexation effect on pig cornea	Davies/Tucker
52	May 97	Academic profile Pharmacy students	Beresford/Drumm
66	Nov 98	Research vitro corneal permeability	Davies
67	Nov 98	Microemulsions in ocular drug delivery	Davies
	Nov 98	The effects of armed hold-ups in NZ pharmacies	Johanna Smith
73	May 99	Selection of applicants for Bpharm course	R Beresford
75	May 99	Tea & P450 Enzymes - cancer prevention	Wanwimolruk
79	Nov 99	Extemporaneous Compounding	N Smith
89	May 00	Geocoding patterns of pharmacy patronage	K Ryan
91	May 00	Database maternal mental health	Waitemata Health
92	Nov 00	Metformin in human milk	Sharon Gardiner
103	Nov 01	Preventing unintentional injury from children's medicines	Nerida Smith
118	May 02	Rural pharmacy workforce	R Beresford
132	Apr 03	Potential of tablets of selected drugs to form pharmaco bezoars	Dr Dorothy Saville
141 IND	May-04	Study on Cytochrome P450 2D6 Metaboliser status and its effect on final tolerated dose of Metoprolol in patients with heart failure	Caroline F Sharp (now Withington)
143	May 04	Are some patients at risk of psychiatric or visual disturbance following use of celecoxib or rofecoxib because of specific genetic variations?	David Clark

## NZPERF GRANTS with copies of published papers

Ref	Approved	Subject	Researcher
147	Feb-05	Survey of pharmacist and public attitudes towards community pharmacy based influenza immunisation	Dr Sarah Hook
150	May-05	New Zealand pharmacists' responses to "Focus on the Future: The Ten Year Vision for Pharmacists in New Zealand"	Dr Jeff Harrison
151	May-05	Current community pharmacists' treatment of sprains and strains with NSAIDs	Rhiannon Braund
153	May-05	NZPharmacists knowledge of and attitudes towards genetic testing	Kath Ryan
156	Nov-05	New Zealanders' understanding and use of antibiotics	Dr Pauline Norris
157	Nov-05	How is the Pharmacy Self Care program perceived and used by pharmacy staff	Fiona Kelly & other
158	Nov-05	Medications and syringe drivers: a survey of their usage in a specialist hospice care environment	Derryn Gargiulo & others
159	May-06	Deeper understanding of drug manufacturing through process analytical technologies	Niklas Sandler & Prof Thomas Rades
160	May-06	How do bile salts increase the penetration of drugs into the brain?	Prof Ian Tucker & Dr Momir Mikov
161	May-06	Review and evaluation of pharmacist involvement in screening services in NZ community pharmacies	Lynne Bye
162	May-06	Cardiovascular risk profile and determinants of risk in mental health patients	Jeff Harrison
163	May-06	Methotrexate polyglutamate pharmacokinetics	Judith Dalrymple
165	Nov-06	Free drug clearance of phenytoin in the elderly	Dan Wright
168	Nov-06	How much medicine is wasted and why?	Rhiannon Braund
172	May-07	In vivo evaluation of in-situ gelling systems for the corneal delivery of antisense oligonucleotides	Dr Raid Alany
173	May-07	NZ community pharmacists' views, perceptions and ethical issues concerning complementary medicines (CMs): a qualitative study	Dr Joanne Barnes
174	May-07	Clozapine use in a community pharmacy setting: New Zealand versus United Kingdom experience	Amanda Wheeler
175	May-07	New Zealand pharmacy students: Motivations, aspirations and professionalism	Dr Jeff Harrison
176	May-07	A qualitative study to explore the feasibility and acceptability of providing early brief interventions for problem drinkers, through community pharmacies	Dr Janie Sheridan
179	Nov-07	Colloidal systems for topical/transdermal vaccine delivery	Dr Sarah Hook
181	May-08	Exploring ethnic and cultural differences in behaviours and attitudes towards medicine-taking	Debbie Bassett-Clarke
184	May-08	To assess the acute effects of BZP and TFMPP on the neurological function of humans.	HeeSeung Lee
186	May-08	Investigation and Improvement of Extemporaneous Amoxicillin Parenteral Formulations Stability	Sanjay Garg
191	Nov-08	Rational formulation approach for "grease ball" molecules using self (micro) - emulsifying drug delivery systems	Anja Graf Thomas Rades
192	Nov-08	Neonatal infusions - what is the dose?	Natalie Medicott

## NZPERF GRANTS with copies of published papers

Ref	Approved	Subject	Researcher
193	Nov-08	Vaginal thrush consultations in pharmacy diagnosis, treatment and referral.	Natalie Gauld
197	May-09	Evaluation of Quality Medicines Imported into New Zealand	Assoc Prof Sanjay Garg Dr Raida Al-Kassas
198	May-09	Unapproved imported medicines:a question of quality	Clare Strachan Pauline Norris Aarti Patel
199	May-09	Development of acqclovir loaded solid lipid nanoparticles intended for ocular administration	Dr Raida Al-Kassas Assoc Prof Sanjay Garg
205	Nov-09	Implementation of Clinical Pharmacy Services in a Community Pharmacy environment within the Hokonui PHO population and sharing of knowledge gained within the pharmacy sector	Bernard McKone & Joan Baas
206	Nov-09	Review of an Influenza Vaccination Service provided by a New Zealand Pharmacy	Ian McMichael & Alice Littlewood
208	Nov-09	Determining the effects of methamphetamine addiction and daily administration of slow-release methylphenidate on the human brain using Magnetic Resonance Imaging(MRI)	Dr Bruce Russell, Reem Jan, Joanne Lin & Professor Robert Kydd
209	Nov-09	Rapid detection of counterfeit and adulterated products using vibrational spectroscopy	Clare Strachan, Keith Gordon & Thomas Rades
216	May-10	Prescribing opioid substitution treatment: Is there a role for Pharmacists in New Zealand	Nick Leach
218	May-10	Evaluation of an on-line training course for the provision of opioid substitution treatment by community pharmacists	Carina Walters, Mino Lorusso, Amanda Wheeler and Susanna Galea
220	Nov-10	Pharmacy services for young people: Exploring barriers and opportunities.	Emma Horsfield, Janie Sheridan and Fiona Kelly
221	Nov-10	Spreadability, retention and tissue compatibility of novel injectable micro-emulsions.	Dr Zimei Wu and Dr Raid Alany
223	Nov-10	A comparison of the dose individualisation methods for warfarin therapy.	Dan Wright, Professor Stephen Duffull
225	Nov-10	Advances in pulmonary drug carriers creating new opportunities for inhaling medicines	Dr Olaf Bork, Professor Ian Tucker
230	May-11	Absorption mechanisms and improvement of rhein a new drug candidate for treatment of diabetic nephropathy	Dr Zimei Wu
231	May-11	An exploratory study in measuring medication safety in New Zealand Hospitals	Jerome Ng
235	Nov-11	International Variability in Medicine Reclassification	Natalie Gauld
247	Nov-12	Development of single dose vaccine implants	Dr Sarah Hook
257	Nov-13	High performance powders for inhalation to treat asthma, COPD, lung cancer and lung infection such as tuberculosis	Dr Shyamal Chandra Das
258	Nov-13	Reversal of multi-drug resistance in pancreatic cancer using a bi-functional liposomal delivery system	Dr Zimei Wu A/Prof James Paxton
274	May-15	A minitabket formulation made from electrospun nanfibres	Greg Walker Assoc Prof Roland Broadbent
