

#RxTechDay

PHARMACY TECHNICIAN DAY

TUESDAY, OCTOBER 16, 2018

Celebrating the **Essential Role** of the **Pharmacy Technician**

This year we have decided to celebrate the Essential Role of the Pharmacy Technician by profiling Pharmacy Technicians from all over New Zealand! This is a fantastic opportunity to highlight the fantastic work that we are doing and to help us connect with pharmacy colleagues at home and abroad.

We spoke with Lisa Mitchell who really wanted to tell us all about her colleague Rachael Mills who is a Dispensary Technician. They both work at Unichem in Levin.

What do you enjoy most about being a Pharmacy Technician and working with Rachael?

As I am also a tech, I enjoy that each day is generally different to the next and I am always learning something new. Rach allows us to do our jobs to the highest of standards, due to her diligence and time management skills.

Tell us why your role is essential to your organisation and/or profession

Our role is essential in the smooth running of the dispensary and continuity of patient care within our scope.

How will you be celebrating Pharmacy Technician Day this year?

We would like to have the day off but the pharmacists might not be too happy about that! 😊

Do you have anything else you would like to say to us?

I, Lisa Mitchell, wanted to acknowledge Rach on Pharmacy Technician Day as she works amazingly hard and efficiently each and every day while raising a young family. She is dedicated to her job and helps our community without hesitation. Without super techs like Rach, the dispensary would not flow seamlessly.
